# HEMAVATHI SUNDARESAN

DATA SCIENCE GRADUATE|DATA SCIENCE AND GEN AI ASPIRANT

Chennai,TamilNadu–600097 | +918838524514 | hemavathisundaresan88@gmail.com

LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

Data Science graduate with skills in Python, SQL, Machine Learning, and Data Visualization, supported by hands-on experience through an Artificial Intelligence internship and data-driven projects. Proficient in data cleaning, exploratory data analysis (EDA), and predictive modeling, with a growing knowledge of Generative AI. Eager to apply technical and analytical skills to develop data-driven solutions and contribute to innovative projects in entry-level Data Science and Generative AI roles.

## TECHNICAL SKILLS

| | | |
|---|---|---|
| Programming Languages | : | Python, SQL |
| Python Libraries | : | Pandas, NumPy, Matplotlib |
| Data Analysis | : | Data Cleaning, EDA |
| Machine Learning | : | Machine Learning Fundamentals |
| Data Visualization | : | Matplotlib |
| Currently Learning | : | Generative AI |

## PROFESSIONAL EXPERIENCE

**Operations Coordinator– Airysole FootwearPrivate Limited, Ranipet (May 2026 - August 2026)**

- Coordinated daily production and manufacturing activities.
- Monitored inventory, production schedules, and material movement.
- Maintained data tracking and reporting for operational planning.
- Collaborated with cross-functional teams to improve workflow efficiency.

## INTERNSHIP EXPERIENCE

**Artificial Intelligence Intern – Pimchip,Vellore (May 2025 - June 2025)**

- Self-motivated with strong accountability.
- Adaptable and quick to learn.
- Effective teamwork and independent working skills.
- Strong verbal and written communication.
- Good time management and attention to detail.
- Committed to continuous learning and improvement.

## EDUCATION

**B.Sc. DataScience – SSS College of Arts, Science and Management, Arcot.**

- Percentage ( Over All) : 82%

**Higher Secondary Education – PVM Government Higher Secondary School.**

- Percentage: 70%

## PROJECT

**StockPrice Prediction Using Machine Learning**

- Developed a stock price prediction model using historical market data and machine learning.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA).
- Visualized market trends, patterns, and correlations using Python libraries.
- Evaluated model performance to improve prediction accuracy.

## ACADEMIC ACHIEVEMENTS

- Won 1st Prize in District level Science Exhibition (2022) for successfully designing and presenting a science project demonstrating innovation and problem-solving skills.

## LANGUAGES

- Tamil,English
